Home Health Care Services

Established in 1916, the Visiting Nurse Association (VNA) of Cape Cod is one of the oldest not-for-profit organizations on the Cape. VNA of Cape Cod provides home health care services to patients from Bourne to Provincetown as well as on both Martha's Vineyard and Nantucket.

A member of Cape Cod Healthcare, the VNA provides an array of services to keep you safe, healthy and independent in your own home.

The goal of every VNA intervention is to assist patients in achieving their maximum independence and health status while remaining safely in their own home. We strongly believe in a continual relationship with our patients, focused on comprehensive education, and will work with patients on an ongoing basis to manage their care and connect them to supplemental community services.

Our home-health teams include:

- Registered Nurses
- Physical Therapists
- Occupational/Speech Therapists
- Certified Social Workers
- Registered Nutritionists
- Home Health Aides
- Volunteers

We specialize in medical/surgical nursing, pain management, wound care, IV therapy, ostomy care, diabetes management, mental health and more. Care starts with a detailed home evaluation to fully assess the patient's status and needs. This assessment is paired with physician reviews to curate a customized care plan to help a patient safely rehabilitate at home.

Additional services include:

- Pediatrics
- Physical therapy
- Occupational therapy
- Nutritional counseling
- Pre-surgical evaluations
- Alzheimer's care
- Lymphedema treatment

Many of our services are available 24 hours a day, 7 days a week. The VNA of Cape Cod is accredited by the Joint Commission for Accreditation of Healthcare Organizations, is Medicare/Medicaid certified, and accepts most private insurance.
